

MAKE FASHION NOT WAR.

Upcycled garments riddled with actual bullet holes. Keeping weapons from doing harm. Supporting anti-violence efforts.

*"Visceral and
disturbing."*

A WEARABLE STATEMENT AGAINST VIOLENCE AND WAR.

Take a strong stance against violence.

Get weapons and ammunition away from harming people and animals.

Value existing garments and resources, give them new life and new meaning.

Support disarmament.

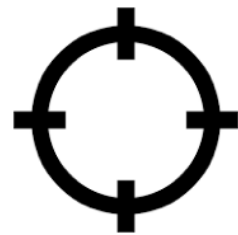

*"Makes you wonder if they
washed out any blood."*

**MAKE
FASHION
NOT
WAR.**

A CHARACTER OF CALIBER

Caliber Fashion uses upcycled garments and riddles them with actual bullet holes, using ammunition salvaged to be forever kept from harming people or animals.

We collect ammunition and weapons, to use them for art and then decommission them into film weapons. As such, they can support further anti-war messages.

We avoid the destruction of old garments by upcycling them into usable art. Wear a gripping expression of protest against unprovoked violence.

SU.STAIN

We invest 50% of all profits into anti-violence efforts, and into work with the UNODC, the United Nations Office of Drugs and Crime.

WE CAN'T WALK AWAY.

What if there is no walking away?
When you turn your back, you will
face your memories. We are part
of one world. One humanity. The
strong care for the weak, and the
weak care for the strong.
